1. **PURPOSE/INTRODUCTION**

The additional compensation requests procedure prescribes the process by which the College of Sciences will submit, enter and pay additional compensation actions for summer salary for work performed from May 16th through August 15th for employees with .75 FTE or more ([REG 05.58.01](#)). For employees under .75, contact College Human Resources at cos_humanresources@ncsu.edu to process payment through the time and labor system. Various university and federal limitations as well as deadlines require the College to follow a consistent process to ensure compliance.

3. PROCEDURAL STEPS

3.1 – *Identify need for additional compensation.* An employee identifies need for an additional compensation action due to overload instruction; summer session teaching; summer salary to conduct research supported by startup funding, retention funding and/or sponsored funding; administrative duties or any other responsibilities that fall outside the scope of normal work effort.

3.2 – *Considerations:*

3.2.1 – An employee may not receive more than 33.33% of their annual base salary when *any* portion of the salary will be paid from sponsored project funds.

3.2.2 – An employee may request an exception to earn greater than 33.33% of their annual base salary, when *no* portion of the salary will be paid from sponsored project funds. This exception requires *Dean’s approval.*

3.2.3 – An employee earning 33.33% of their annual base salary, may not charge greater than 90% of this summer salary to sponsored project funds, without *Dean’s approval.*

3.2.4 – An employee may request an exception to earn greater than 90% of their summer salary from sponsored funds in a single pay period. This exception requires a *Dean’s approval and a monitoring plan.* It is the responsibility of the Department Head to ensure there is a monitoring plan in place, that monitoring occurs and is recorded/archived in the event of an audit.

3.2.5 – Employees who receive, process or approve summer salary that is paid in whole or in part from sponsored project funds must complete online training on NCSU summer salary policy prior to submitting the ACRF.

3.2.6 – Per the NSF two-ninths rule, a person considered to be Senior Personnel cannot be paid more than 2/9 of their academic annual salary, whether it is paid for summer or academic year time, over any given 12 month time period, specifically August 16 through August 15. This limit includes funds received from all NSF funding sources, including flow-through funding.

3.2.7 – Monthly salary expenditures charged to NIH funded projects cannot exceed 1/12th of the NIH annual salary cap. This salary cap is adjusted annually, usually January 1. The ACRF will have the current salary cap.

3.2.8 – All summer salary requests must be processed and paid by September 30th to comply with TEARS. Any payments after September 30th require *Dean’s Approval.* Justification/explanation for late submission in “Other” box or by attachment is required.

3.2.9 – Summer salary additional compensation requests from sponsored research funds require Agency approval. Approval is required as part of the awarded budget or via an approved PMR prior to submission of ACRF. Departments assume financial responsibility when the PMR is denied by the sponsoring agency.

3.2.10 – Work is not to commence prior to the submission and approval of the additional compensation request and action by all College of Sciences offices.

3.2.11 – Amounts earned after July 1 will not be adjusted due to salary increases. Prior year academic year salary is the basis for calculations.

3.2.12 – *Earnings codes*

3.2.12.1 – 601 – work performed 05/16/XX – 06/30/XX - for research activities regardless of fund source

3.2.12.2 – 602 – work performed 07/01/XX – 08/15/XX - for research activities regardless of fund source
3.2.12.3 – If entering action after 07/0/XX for work performed 05/16/XX – 06/30/XX use 601
3.2.12.4 – Refer to earnings codes link for a complete list of codes
3.2.12.5 – 617 - consult with COS HR and if 617 is approved, upload COS HR approval email

3.2.13 – Faculty on phase retirement are eligible to receive summer salary with no limitations
